

## Junior Girl Scout First Aid Program

**Sunday,  
March 12, 2023**

**Event: 11am-2pm  
Open House: 11am-5pm**

Clara Barton National Historic Site is commemorating Women's History Month with a special program in honor of the founder of the Girl Scouts, Juliette Gordon Low's birthday. This event will highlight Clara Barton's role with the importance of first aid training in America and offer Junior Girl Scouts the opportunity to learn about the history of first aid, talk with an EMS-trained official, learn how to act in emergency situations, create a personal first aid kit to take home, and more.

Through our series of related activities and discussions, scouts can complete the requirements to earn their "Junior First Aid" badge. Junior Girl Scouts may attend the open house event with their troop or with family members and friends. Please RSVP by email if you plan to attend.
